MINOX WILDLIFE CAMERAS

For quite some time now, wildlife cameras are being used for monitoring, recording and researching wildlife, and have become indispensable tools for the assessment and preservation of animals in their natural environments.

As with all our products, MINOX is setting milestones in the development of innovative, user-friendly and reliable wildlife cameras for use in a variety of situations. To leave a wildlife camera for days or weeks in the field, well-conceived and precisely constructed technology is a must.

It is exactly this know-how that is put into our robust and weather-resistance wildlife cameras, meeting the highest of demands.

MINOX wildlife cameras – revealing nature's treasures.

DTC 1100

THE TRAIL CAMERA OF A NEW GENERATION.

DTC 700

MODULAR. COMPACT. FLEXIBLE.

It has never been so easy to install a camera with cellphone module. As soon as the SIM card is inserted the DTC 1100 is ready to go and the user can select from a range of preinstalled network providers with fast access via Plug+Play. If there is a poor signal the DTC 1100 chooses the network with the best reception (4G or GSM) to ensure permanent data transmission.

- Sends images instantly per MMS or e-mail to the mobile phone or PC
- Preinstalled network providers for easy and fast access via Plug+Play
- 4G (HSPA+) or GSM network
- Invisible IR-flash with a range of 18 m
- Multi zone PIR motion sensor
- 8 Megapixel
- Convenient 2" TFT colour display
- Fast shutter release (<1 sec)
- Photo / HD video resolution
- Switch-on time function
- Time lapse mode (fixed intervals without motion detection)

The new modular housing concept of the DTC 700 makes it incredibly easy to install the camera. To evaluate the data, the camera module is simply removed from the protective housing and then reinserted. The renewed realignment of the camera's position is thus omitted.

- Invisible IR flash with a range of up to 15 meters
- Removable camera module
- Special MINOCTAR lens
- 6 megapixel resolution (5 MP hardware resolution)
- Fast shutter release of less than 1 second (0,2 sec. if used with an external power supply)
- Efficient 2.0" TFT colour display
- Battery life of up to 6 months
- Power supply - 8 x 1.5V AA batteries
- Robust and weatherproof protective housing with a REALTREE™ Camouflage coating
- USB port, port for external power supply
- Comes with mounting strap and USB cable

DTC 650

FLEXIBLE. SHARP. EFFICIENT.

With a resolution of up to 8 megapixels, the DTC 650 delivers excellent quality photos with perfectly sharp details and contrast. The high-performance infrared flash provides perfectly reliable images even on a pitch-black night. Even more flexible and efficient recordings are possible with the intelligent and well-designed motion sensor.

- Invisible IR-flash with a range of 20 yds. (18 m)
- Multi zone motion sensor
- 8 megapixel resolution
- HD video resolution
- Very fast shutter release (0,5 sec)
- Up to 5 consecutive images and 30 second videos
- Multi-lingual menu navigation
- SDHC memory card up to 32 GB
- Convenient 2" TFT colour display
- Battery life up to 6 months
- Robust and weatherproof housing
- Ports: USB, 6 V
- Padlock ready

DTC 400 SLIM

THE SLIMMEST TRAIL CAM EVER.

With the extremely slim and contoured design of the DTC 400 SLIM, this wildlife camera can be mounted on nearly any tree and remain almost completely undetected. The camouflage look and mere 2.7 cm makes the DTC 400 SLIM the perfect observation camera for covert observation of wildlife or private property.

- Invisible IR-flash with a range of 15 m
- 8 megapixel resolution
- HD video resolution
- Fast shutter release (<1 sec)
- Up to 9 consecutive images and 60 second videos
- Multi-lingual menu navigation
- SDHC memory card up to 32 GB
- Convenient 2" TFT colour display
- Battery life up to 6 months
- Robust and weatherproof plastic housing
- USB port
- Padlock ready
