Date Received (MS Hobbies): _____

Film Details

Number of APS Cartridges: _____

Cartridge 1 Case Code (C / H / E): _____

Cartridge 2 Case Code (C / H / E): _____

Cartridge 3 Case Code (C / H / E): _____

(continue as needed)

APS Case Code Explanation (for customers)

C — Closed / Unused

Film is unexposed. The cartridge has not been used.

H — Half / Partially Exposed

Film is partially used. The camera will normally wind to the next frame.

E — Exposed / Ready for Processing

Film is fully exposed and ready to be developed.

If the cartridge is stuck in H, we can still process it.

Notes on Pricing

- Prices apply per cartridge unless otherwise stated.
- Partially exposed cartridges (**H**) may incur an additional handling charge if the mechanism is jammed.
- Unused cartridges (**C**) can be returned unprocessed at no charge.
- All processed negatives are returned inside the cartridge

APS Processing Method

APS films are processed using industry-standard APS scanners. Film remains inside the cassette throughout processing and is automatically rewound after scanning. This ensures correct handling, frame indexing, and long-term film safety.
